This delightful mix of retro design, happy florals, and classic stripes creates an air of playful happiness. Inspiration is taken from creating something new by using the familiar. This trend is an ideal place to use deadstock fabrics to create unique combinations of color and prints. These daring looks speak to our desire to build a new digital language of self-expression.

## **PRINT**

*flowing, mixed nostalgia, happy florals, stripes, omni-cultural, banal novelties*

## **FABRIC**

Soft dreamy shades transmit a calm feeling that drives the **Pastel Perfection** theme. These less saturated colors convey nostalgic energy that continues to trend across the fashion industry in 2021.
